New York, Aug. 29.—The downward
movement of the stock exchange received
fresh impetus today by reason of the pub-
lication of the very discouraging state-
ments made by the Rock Island Railroad
company by President Cable, in an inter-
view had in Chicago yesterday. The bears
raided the ammunition thus supplied to
them and raised Rock Island, the other
grangers, and in fact, the entire list, and
succeeded in forcing prices down materi-
ally. Rock Island selling off 1/4, Burling-
ton 1/4, St. Paul 3/4, Northwestern 3/4, Mis-
souri Pacific 1/4, and New York Central 1/4.

The industrials were also very heavy,
notably Sugar, which was sold heavily on
reports that the tariff was not so favor-
able to the trust as had been represented.
The selling of sugar was largely by
clique during the recent advance, and con-
sequently it was held before the close of
holdings acquired at figures much lower
than current rates. A break of 3/4 per
cent. to 1 1/2 per cent. was effected before 1 o'clock.
During the afternoon, a rally to 1 1/2 per
cent. was followed by a reaction to 1 1/4 per
cent. and a final rally of 1/4 per cent. to
close at 1 1/2 per cent.

The other industrials shared in the de-
pression. Whiskey fell 1/4, while some
lead in the speculative market, was weak,
receding 1/4, and advancing 1/4, on the early
trading and the decline of the day.
Disquieting reports of the failure of
business to respond to the settlement of
the tariff question were a factor in the
depression of the values, and the sugges-
tion that the fight be renewed next De-
cember did not relieve the depression.

The greatest depression was experienced
shortly after 1 o'clock, and after there
were occasional rallies, the market closed
at a low level. In the final
dealings a fairly healthy tone prevailed
and the market closed steady.

The bond market was fairly active and
very steady. The transactions aggregated
\$1,250,000.
Money on call, easy at 1 1/2 per cent.; loan, 1 1/2
per cent. offered at 1 1/2 per cent.

Prime mercantile paper, 3 1/2 per cent.;
Sterling exchange, bill and tender, with
actual business in bankers' bills at 4 1/2 per
cent. for demand, and 4 1/2 per cent. for
sixty days.

Postpaid rates, 4 1/2 per cent. and 4 1/2 per
cent. for demand, and 4 1/2 per cent. for
sixty days.

Commercial bills, 4 1/2 per cent.;
Silver certificates, 6 1/2 per cent.;
Government bonds, firm; state bonds
dull; railroad bonds, steady.

Columbian exposition. There are six-
teen extensive foreign sections in the
building of manufactures and liberal
arts.

Amusement features will be num-
erous, including many of the best of the
Midway features at Chicago, such as the
Turkish village, but in addition there
will be several new and original.

A beautiful natural park occupies one
corner of the large ground. It com-
prises forty-five acres of the wildest
and most picturesque of Washington
forest scenery. Located in large in it
is tame elk and deer. On a small
lake in the grounds are Indians in their
dug-out canoes.

The situation of the grounds has
prompted the admiration of all who
have visited them. Sloping away to the
sound, a magnificent view is com-
manded of the water, of the fire-
hills and of two mountain ranges, the
Cascade and Olympics. Rising far
above the jagged, snow-capped peaks
of the former range is Mt. Tacoma,
14,444 feet high, overshadowing the very
grounds.

The fair buildings, interspersed with
those of the many concessionaires, are
clustered around the grand court, in
the center of which is a small lake.
The building the fair and putting the en-
terprise on its feet was an undertaking
involving no small amount of determi-
nation and hard work. The diffi-
culty of securing money was the first
obstacle encountered. To start the ball
rolling, Governor McGraw, the mayor
of the city, professional men, laborers
and mechanics turned out one March
day, took off their coats and started
clearing the grounds with their own
hands. Their actual labor accom-
plished much, while the force of their
example had a good effect in securing
money to go ahead.

Floods and strikes set matters back
somewhat, but indomitable western en-
terprise and determination eventually
triumphed and there is now about to
be opened to the world, an exposition
greater by far than any previously at-
tempted west of the Mississippi, ex-
cepting only the Chicago fair.

The cost of the buildings approximates
\$300,000; the liberal arts building alone
cost \$150,000. The expectation is that
100,000 people will visit this exposition
before the gates close on November 1.
The fair management is as follows:
Henry Buey, director-general; J. An-
thony Gorman, assistant director-gen-
eral; executive committee, G. L. Hol-
mes, George P. Eaton, C. J. Dow,
George Stone, A. Gross, A. J. Hayward,
G. R. Osgood and F. K. Lane.

No other Sarsaparilla has the merit
by which Hood's Sarsaparilla has won
such a firm hold upon the confidence
of the people.
